Activity Name: Aboriginal children and the effects of intergenerational trauma

Learning outcomes At the webinar's completion, participants will be able to:

- Describe the effects of intergenerational trauma on Aboriginal and Torres Strait Islander children and families
- Outline current research that underlines the importance of cultural competence in all Aboriginal and Torres Strait Islander and non-Indigenous services so that First Nations children and their families receive the kind of support that they need
- Discuss examples of organisational and individual practice that has built trust and collaboration within communities and led to positive outcomes.

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
