

The webinar will start soon. While you are waiting

Did you know MHPN supports networks where practitioners meet either in-person or online to discuss issues of shared interest?

Networks that focus on Older Persons mental health meet in the following locations:

SOUTH AUSTRALIA COUNTRY | BRISBANE NORTH | SUNSHINE COAST | GOULBURN VALLEY/HUME | PERTH DEMENTIA (Online) | NORTH SYDNEY | CAIRNS

Use the QR code or visit www.mhpn.org.au/News/June/Older-Persons-Networks to join & be invited to future meetings.

Interested in coordinating or joining a new Older Persons special interest network in **Western Australia, Northern Territory or Tasmania?**

Use the QR code or email j.kho@mhpn.org.au to register your interest.

Age, frailty, loneliness and suicide

An Australian Government Initiative

WEBINAR

Age, frailty, loneliness
and suicide

2

1

This webinar

Is the result of a unique partnership between the thirty-one Australian Primary Health Networks and the Mental Health Professionals' Network. This is the fifth webinar of second series produced under this partnership exploring older people and mental health.

Through a facilitated panel discussion, this webinar will offer interdisciplinary insights into the complex interrelationship of ageing related health issues as well as the merits, challenges and opportunities in providing collaborative care to older people grappling with age related health issues.

Learning Outcomes

Through a facilitated panel discussion, about age, frailty, loneliness and suicide, at the completion of the webinar participants will:

- Discuss how frailty, loneliness, sadness, depression and suicide are connected.
- Identify strategies for mitigating the link between physical frailty and mental frailty.
- Evaluate the role the community plays in Older People's physical and mental health.
- Identify the services that can support Older People's social and emotional wellbeing in the community and Residential Aged Care Facilities (RACF's).
- Discuss improved targeting of referrals for older people who may be experiencing frailty, loneliness, sadness, depression or suicidal ideation as a result of improved understanding of the role of different disciplines and community services.
